HOW STRONG ARE EMF'S TODAY?

- **MR Radiation Levels from 2007 to 2017 = 1,000,000,000,000,000,000 Times Higher!!**

(1 Quintillion Times higher in just 10 yrs…or "One Million Trillion" Times higher!!! Source Professor in Neuroscience, Karolinska Institutue, Sweden talking about 3G Cell Phone Microwave Radiation levels in the USA. 3Generation levels = approx. 750 Million to over 1 Billion Hertz, waves/sec. MR = Microwave Radiation.)

COMMON EFFECTS FROM EMF's:

- Fatigue
- Sleep Issues
- Headaches
- Immune System Imbalances
- Fertility Issues
- Alzheimer's, Cancer
- Children more affected than adults
- DNA Damage & Cellular Damage

EVERYONE REGARDLESS IF THEY HAVE SYMPTOMS ABOVE OR NOT!

(1) All above are listed in over 4,000 studies at BioInitiative.org

There are over

10,000 EMF Studies

around the world proving EMFs are harming humans.

(20,000+ including military papers)

www.BioInitiative.org

- **Over 4,000 studies** of EMF's causing Biological Effects including: Fatigue, Sleep Disturbances, headaches, Immune System Imbalances, Alzheimer's, Increased Cancer Risks, Children more affected, and more [1]

- **World EMF Organization**
- **Independent Group** of scientists and Environmental Group leaders from all over the world (approx. 20% from USA)
- **Non-Biased** **(they sell nothing)**
- **Over 10 yrs. of studies**

(All information on this page is directly from www.bioinitiative.org. No statements are from EMF Solutions)

CHILDREN ARE MORE AFFECTED

- **Children have 2 X to 2.5 X DNA Damage** *(compared to adults)* [1]

- **A Woman's Eggs have 10 X DNA Damage** *(compared to adults)* [2]

STUDY #1 (of 2) –
A US Gov't Study:
Cell Phones & Cancer

THE MOST EXPENSIVE & LONGEST STUDY YET

(on CELL PHONE RADIATION)

- **$30 Million –** the most expensive cell phone study ever
- **10 Year Study – concluded Nov. 2018**

Cell Phone & Cancer Study:

- **Done by the National Toxicology Program (NTP)** – (a federal, interagency program whose goal is to safeguard the public by identifying substances in the environment that may affect human health.)
- **Located at the NIEHS** (National Institute of Environmental Health Sciences, a gov't agency, & **Published at the NIH** (National Institute of Environmental Health Sciences)
- **Used "2G" and "3G" exposure** – the frequency and intensity levels of cell phones (NOTE: This study **did NOT investigate** types of EMF's used for **Wi-Fi, 4G or 5G** Networks)

Study's Conclusion:

Quoted:

- **"There is clear evidence that male rats exposed to high levels of radio frequency radiation (Cell Phone Level EMF's) like that used in 2G and 3G cell phones developed cancerous heart tumors." [1]**
- **"And there was evidence of tumors in the brain and adrenal gland of exposed male rats." [1]**

(1) According to the NIH News release November 1, 2018

CONCLUSION = A Consensus

- The final reports represent the **consensus of NTP and a panel of external scientific experts who reviewed the studies** after draft reports were released.

Consensus = everyone agreed on results

everyone agreed that 2G/3G cell phones caused cancer in rats & mice

STUDY #2 –

Reflex Study – from European Commission (Cell Phones vs X-Rays)

...12 Institutions compared the biological effects of Cell Phones & X-Rays

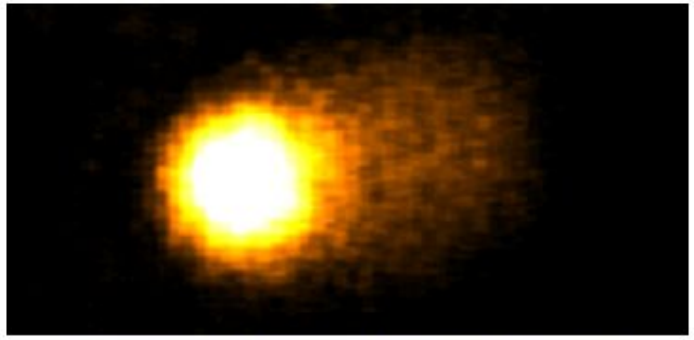

STUDY #2 –

Reflex Study – from European Commission (Cell Phones vs X-Rays)

- **Headed by Professor Franz Adlkofer,** professor of internal medicine who specializes in diseases caused by environmental or behavioral causes
- **Study Funded by the European Union for over $3.3 Million** Dollars (or $3 Million Euro)
- **Study done by 12 institutions**

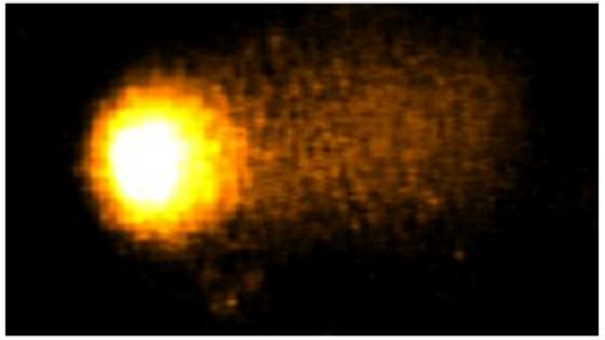

The same DNA damage

24 HOURS ON A CELL PHONE = 1,600 CHEST X-RAYS

WHO backed study 4/25-
EMFs Cause Cancer in Animals

- A new systematic review of animal studies on wireless radiofrequency (RF) radiation and cancer commissioned by the World Health Organization (WHO) and published in *Environment International* concluded with “high certainty” that exposure to wireless RF radiation causes two types of cancer in animals. The "certainty" reflects how confident researchers are that the observed effects — such as the link between wireless RF radiation and cancer — are real and not due to chance, bias, or flaws in the study design.

FDA & FCC should be warning people!

This is why over 40 countries have since passed Federal EMF Laws

(Not the United States)

WHY DON'T WE KNOW ABOUT THESE DANGERS?

- **Wireless Industry spends over $100 Million per year to lobby Congress!** (For super relaxed laws & regulations. They can make any radar product and require ZERO Biological Testing at all.)

- **So companies can put almost any Radar radiation device anywhere they want and it is legal.**

(Because of $$$ Lobbying in the US)

MICROWAVE SAFETY LEVELS:

Safe Level for Adults

SCIENTISTS 4,000 STUDIES **10 $\mu W/m^2$**

(Level based on no bias □ in BioInitiative Reports)

VS.

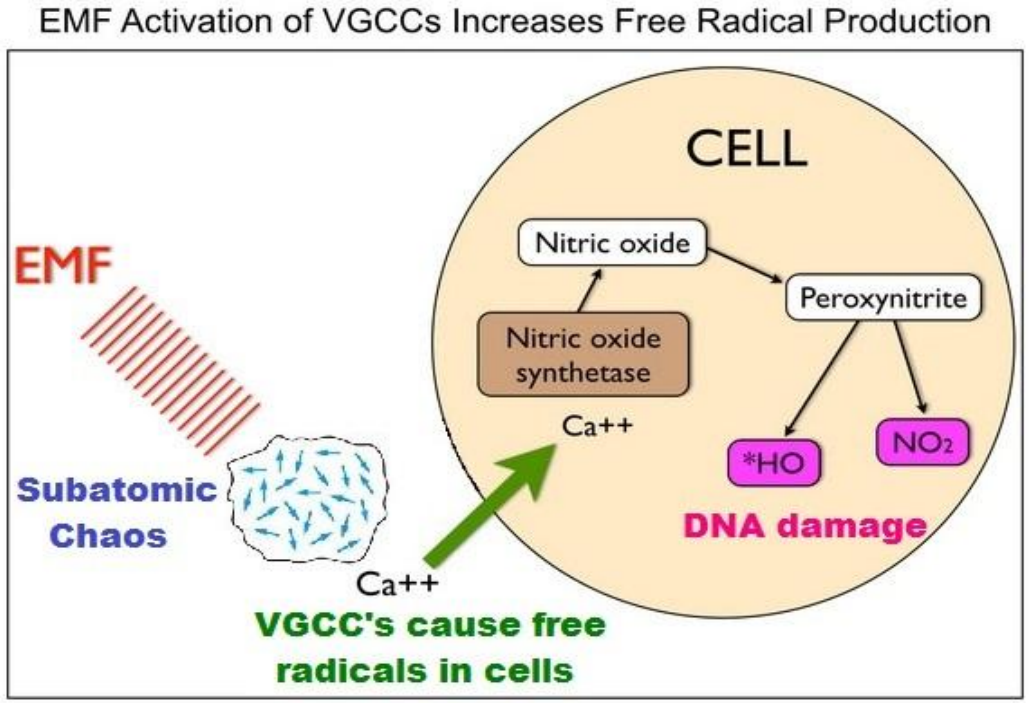

FDA Safety Guidelines *(for Microwaves/Microwave Ovens)* **10,000,000 $\mu W/m^2$**

THE USA HAS ONE OF THE HIGHEST SAFETY LEVEL IN THE WORLD.

If you are waiting for the Gov't to inform you or protect you…don't hold your breath!

HOW EMF's DAMAGE CELLS?

Low frequency EMF's <u>DO NOT directly damage us</u>…but rather indirectly damage us…

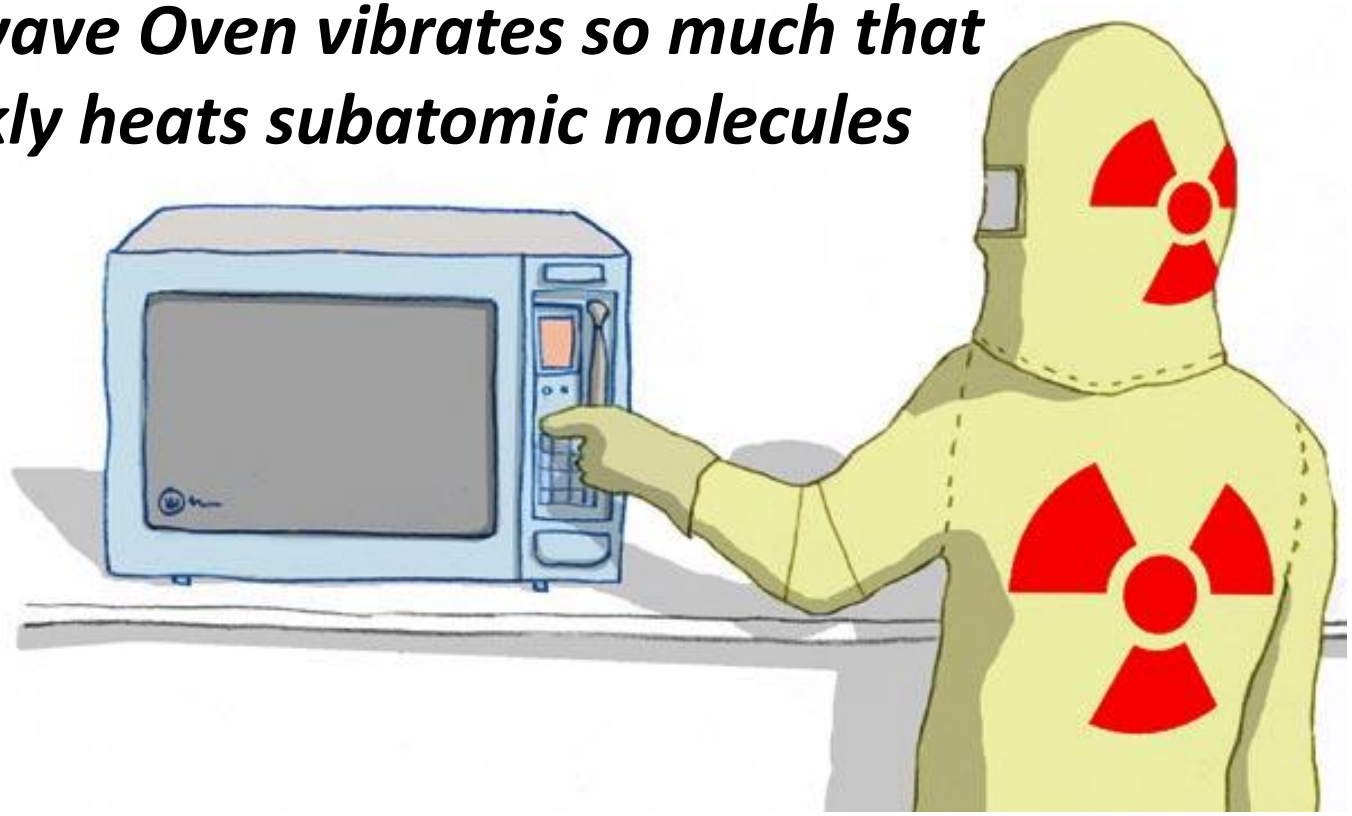

(1) Image Credit: Dr Paul Dart and Dr Martil Pall at Washington State University drew a majority of image above and EMF Solutions also contributed to image.

When there are <u>many</u> *(manmade)* **photons vibrating there's more "subatomic chaos"…**

EXAMPLE:

A Microwave Oven vibrates so much that it quickly heats subatomic molecules

A Clip from the movie about Smart Meters called:

“TAKE BACK YOUR POWER”

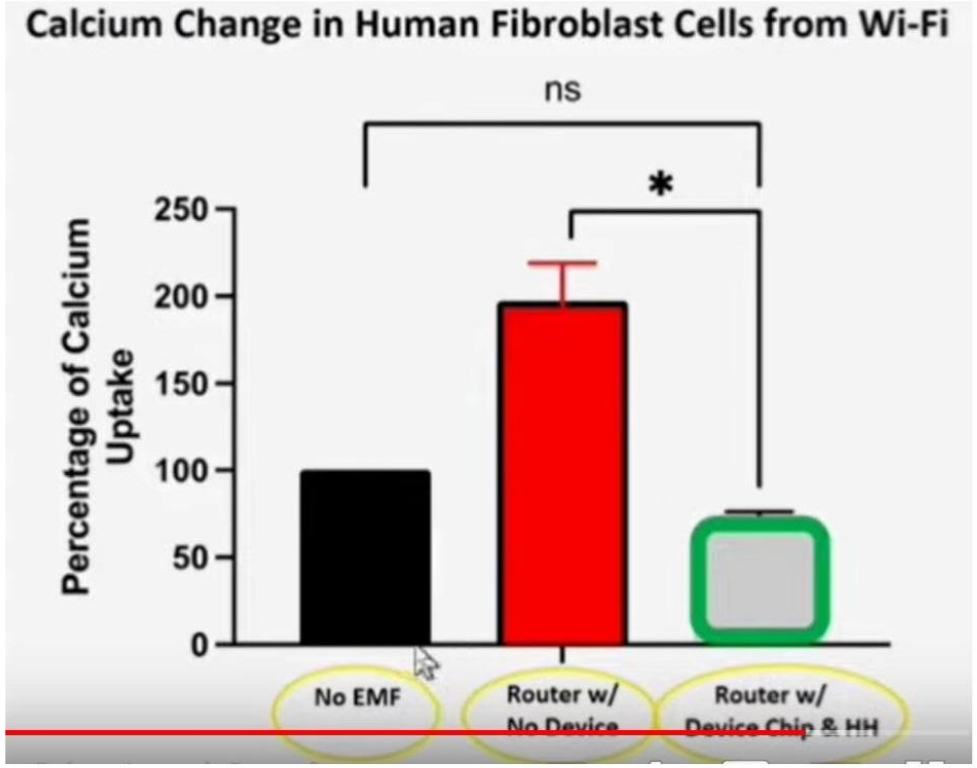

How Products Work

- They DO NOT BLOCK EMF's
- They address the root cause the SUBATOMIC CHAOS EMF's create
- They FILTER EMF's biological harm or "Harmonize the chaos" by creating a field

Proof that the Products Work:

1. Blood Microscopy Testing
2. Thermal Imaging
3. Acugraph
4. Avatar
5. Muscle Testing
6. Testimonials
7. 3rd Party Cell Calcium study

3rd Party Study Conclusion- Exposure to EMFs from a Wi-Fi router caused significant calcium dysregulation in human cells. Earth-based EMF remediation tools from EMF Solutions successfully reversed these disruptions

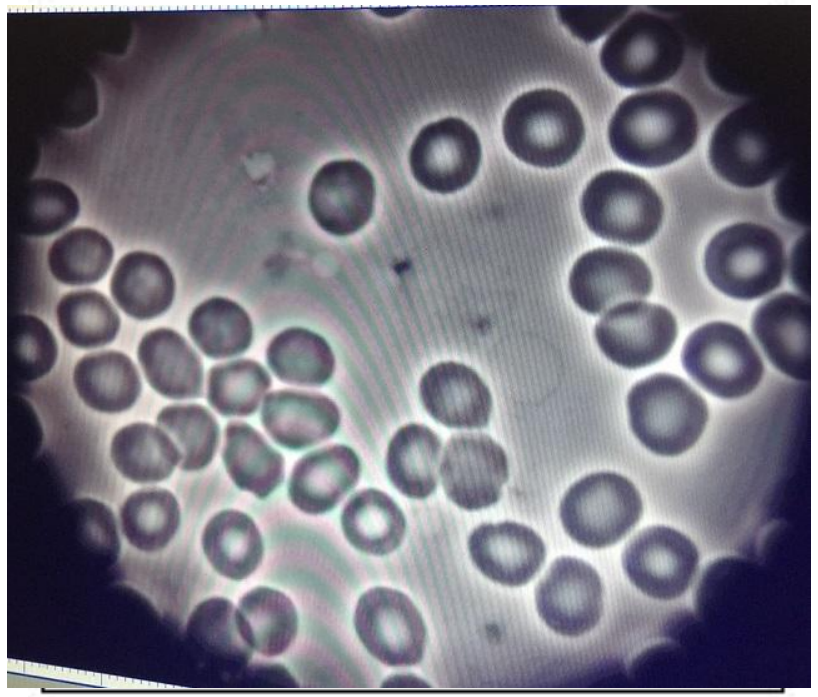

Blood Microscopy Test:

ON CELL PHONE for 2 minutes

USING EMF CHIP

"Noticeably healthy. Very round cells spaced apart well to deliver oxygen to the body.

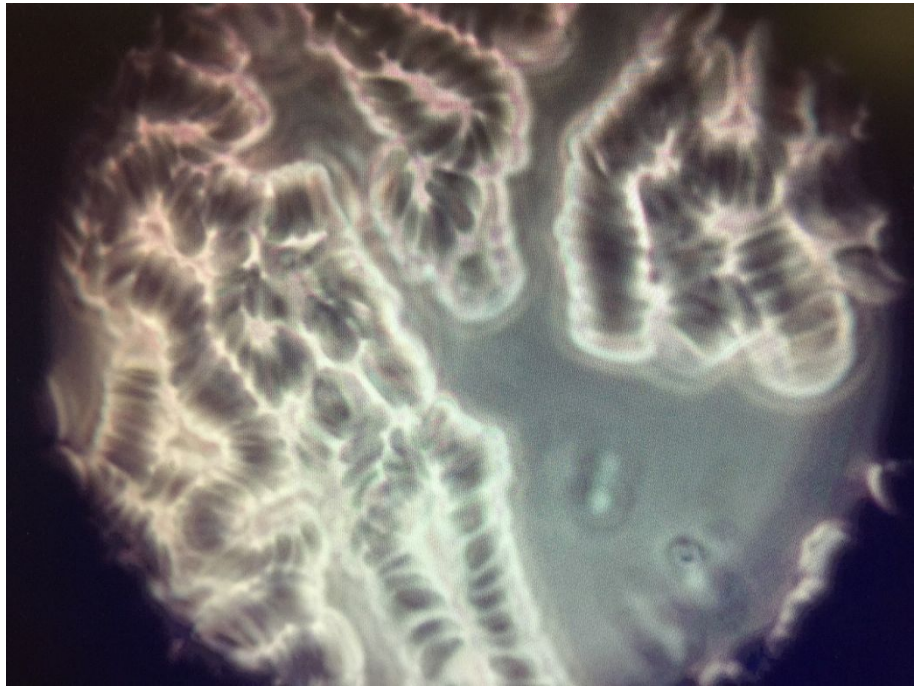

NORMAL

Subject on Cell Phone Call for 2 Min... each pic taken 5 min apart

WITHOUT EMF CHIP

Notice Rouleaux & agglutination (sticking and stacking) and presence of Target Cells (white centers).

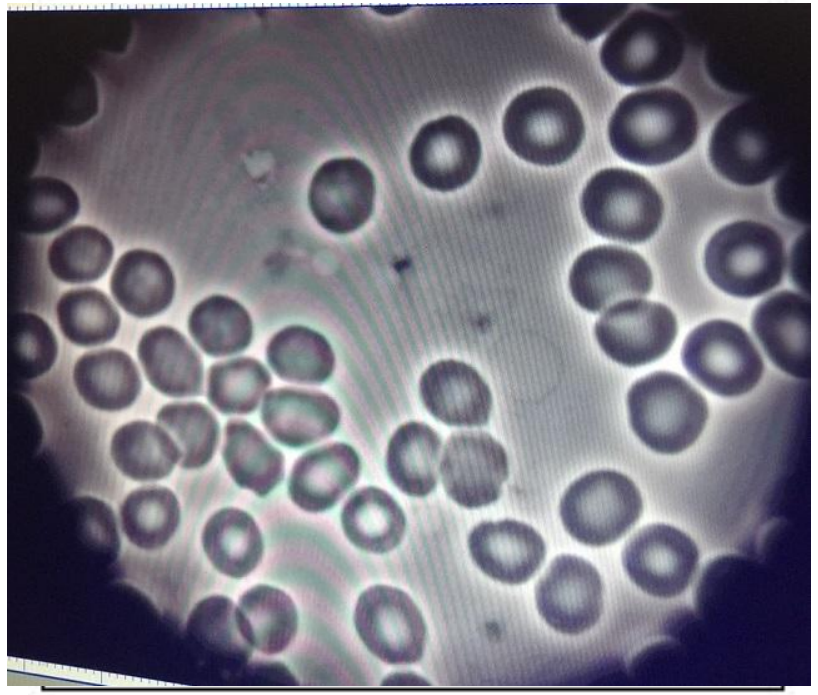

ABNORMAL

The same results happen near:

Powerlines , Wi-Fi , Smart Meter , Cell Phone, Etc

AFTER ONLY 2 MINUTES

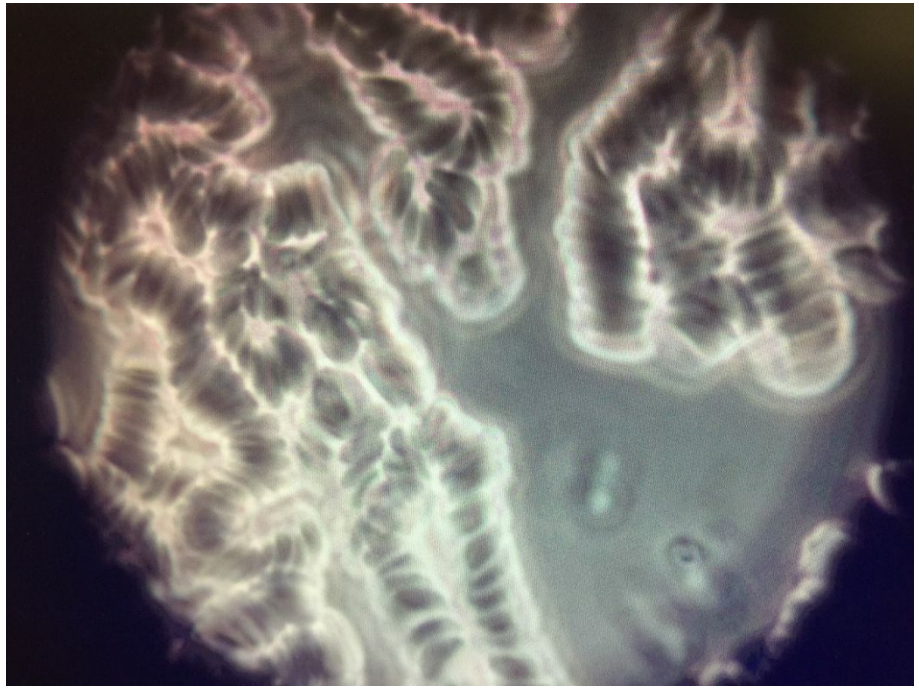

USING EMF CHIP

NORMAL

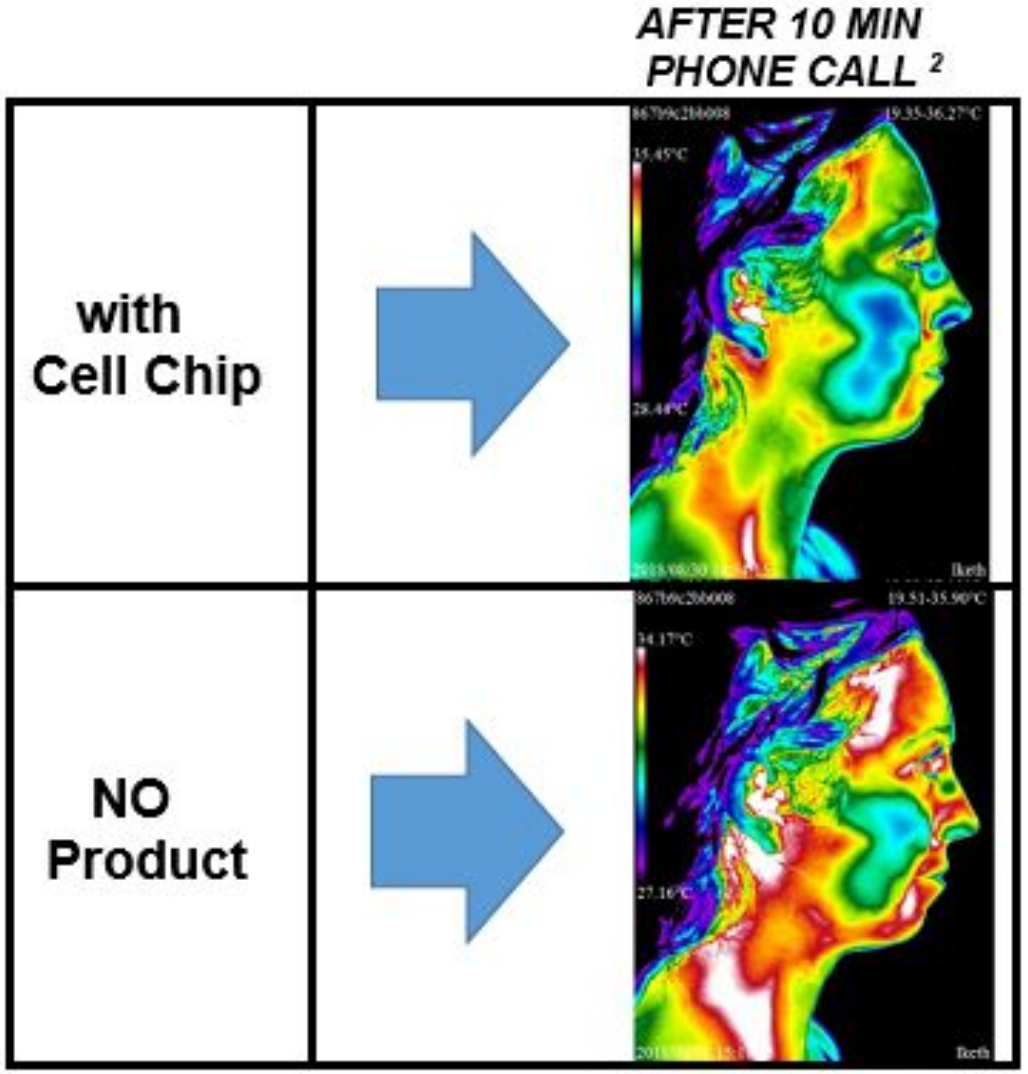

Subject on Cell Phone Call for 2 Min... each pic taken 5 min apart

WITHOUT EMF CHIP

ABNORMAL

Thermal Imaging

Example picture seems typical in testing so far!

TESTIMONIALS (very common)

- "Throughout my body **I had pains that literally went away in less than one day using the EMF Products**." 11/21

- "After the first night my son slept better and all of the way through the night for the first time ever. And when he woke an upper respiratory condition completely disappeared!" – Matt Hubbard, President of California Chiropractor Association (Poway, CA) 8/22

TESTIMONIALS

- I just recently started using these products in my home. I am blown away by the results!! I have suffered from symptoms of fibromyalia and Lyme disease for the last 10 years. **For the first time, I have felt relief from the pain and swelling in my joints. My headaches are gone!!** 5/25

- I'm a Functional Medicine Practitioner that teaches every client the impact of EMF's. I'm hyper-electrosenstive and get really ill when around high amounts of EMF's…**NOTHING worked for me UNTIL I found EMF Solutions. I am not exaggerating. I tried many other well known brands and I got zero relief. A few days in with the EMF Solution products, I was back to my normal self**. 5/25
